

COVID-19 Hotline for Employees & Physicians

To provide support and address employee and physician questions related to COVID-19 exposures and testing, the **COVID-19 Employee Hotline** has been established.

This line is staffed daily by a clinician (MD, NP, RN) who will answer employee and physician concerns regarding exposures and testing. **If you have a personal inquiry specific to COVID-19 exposure or testing, please use this Hotline instead** of contacting the Appointment & Advice Call Center, Infectious Disease, your personal physician, or Employee Health.

For Roseville and Sacramento Area employees and physicians, the COVID-19 Employee Hotline is (510) 987-1945, available 8 a.m. to 8 p.m., 7 days a week.

If you are a provider with a question about a patient, please continue using the COVID-19 Triage line.

Hotline phone numbers for all NCal Service Areas:
